Identification/ Intervention

Target Solutions

- (1) Known Current users-database

Those who follow these people

Heroin Involved

Sharing the current users among stakeholders

Short Term

- (2) Establish database of users

Create checklist for positive Intervention

24/7 365 day Central Coordination Center

How will we measure success?

- (3) 1.Determine modes
2. Reductions in use?
3. All Stakeholders see a reduction in activity

(4) Resource Commitments

a) Pulling together Mental Health Board & DA Board to establish funding for a 24/7 intervention response team

b) All Stakeholders

Hospital
Families
EMS
Police
Counselors
Correctional Facility
Treatment Centers

c) Who Pays?

ADAS/Mental Health Board

Health Care Insurance

(5) Team

Mental HB & ADAS

All other stakeholders

(6) Resource Gaps

(7) Next Steps

Get Reps from Mental Health Bd./ADAS on board

(8) New Target Solution

Establish a 24/7 ERT to proactively respond to an opiate perceived crisis

ACTION STEPS

1. Legislators/ Attorney General-involved for legal use of data base
2. Establish a functional HIPPA Compliance
 - a) Voluntary commit to list
 - b) Legally put on list?
3. Create a local drug function to coordinate all identification/ intervention options
4. Intervention must be 24/7
5. Protect database
6. Reduce Heroin traffic

(9) Long Range Goal- One Year:

- a) Establish 24/7 ERT
- b) Team- Establish & Define Data matrix
- c) Trained all Stakeholders
- d) 24/7 ERT Team w/ Emergency Services/ Cross System Training

e) Team should have Cultural Diversity Training

f)

(10) Long Range Goal- Two Year:

a) Decrease Number of EMS calls for service & ER Visits for Drug Abuse

b) Number of Infants in nursery need monitored due to drug abuse

c) Decrease number of Overdose Deaths

d) Increase Community Knowledge & Awareness
