

SAFE | SUBSTANCE ABUSE FAMILY EDUCATION

When a child, spouse, or relative struggles with addiction it impacts the whole family. If someone you love is addicted to drugs or alcohol, feelings of anger, frustration and helplessness are normal. Sometimes it's hard to know where to turn for help and what help even looks like. That's why CBH is proud to introduce our new family support group SAFE. This free and flexible group is dedicated to providing information, resources and help for individuals with loved ones suffering from addiction.
