

NPDES Small MS4 General Permit (OHQ000003) Annual Reporting Form

Instructions for completing this form:

- OHQ000003 requires that this form be used when submitting annual reports. You may request approval to use your own reporting format.
- Annual Reports are due annually on or before April 1st.
- Complete the form and sign and date the certification statement below.
- If more space is needed than is provided, identify within the provided space that Attachment A, B, C, etc. has been attached.
- If an item of the form is not applicable for your program (such as street sweeping), fill in N/A in the space provided.
- Don't include attachments such as brochures, newspaper clips, sign-in sheets, etc. related to your program with this form. You only need to summarize these within this report. These records must be filed and will be needed during program audits.
- When complete, submit this Annual Report form to the following address:
Ohio Environmental Protection Agency
Division of Surface Water
Storm Water Program – Small MS4
P.O. Box 1049
Columbus, Ohio 43216-1049

Small MS4 Annual Report for Year: 2017

Ohio EPA Facility Permit Number: 1GQ00055*CG

Name of MS4: City of Middletown, OH

Primary Contact: Scott Tadych, P.E.	Title: Director- Public Works and Utilities
-------------------------------------	---

Mailing Address: One Donham Plaza

City: Middletown	Zip Code: 45042	County: Butler and Warren
------------------	-----------------	---------------------------

Telephone Number: 513-425-7845	Email Address: scottt@cityofmiddletown.org
--------------------------------	---

Include or attach a Table of Organization. Indicate who (name and contact information) is responsible for overall management and implementation of your program, and if different, each minimum control measure of your program. Identify how development and implementation across multiple positions, agencies and departments occur. Also, identify any Memorandum of Understandings (MOUs) or other such agreements that exist.

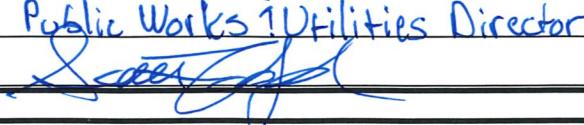

Storm Water Management Program Table of Organization

Minimum Control Measure (MCM)	Responsible Individual	Phone Number	Fax Number	Email
Overall SWMP Management and Implementation	Scott Tadych, P.E.	513-425-7845	513-425-7921	scottt@cityofmiddletown.org
Public Education and Outreach	Scott Tadych, P.E.	513-425-7845	513-425-7921	scottt@cityofmiddletown.org
Public Involvement / Participation	Scott Tadych, P.E.	513-425-7845	513-425-7921	scottt@cityofmiddletown.org
Illicit Discharge Detection and Elimination	Charlie Anderson	513-425-7953	513-425-1877	charliea@cityofmiddletown.org
Construction Site Runoff Control	Scott Tadych, P.E.	513-425-7845	513-425-7921	scottt@cityofmiddletown.org
Post-construction Storm Water Management in New Development and Redevelopment	Scott Tadych, P.E.	513-425-7845	513-425-7921	scottt@cityofmiddletown.org
Pollution Prevention / Good Housekeeping for Municipal Operations	Charlie Anderson	513-425-7953	513-425-1877	charliea@cityofmiddletown.org

The Director of Public Works and Utilities establishes principal authority to manage and implement each MCM to individuals listed in the above Table, of organization. The Public Works Superintendent provides on-going development and implementation of the SWMP by coordinating daily use of city of resources (labor, equipment, records, and office staff) to meet the SWMP needs. This may include handling citizen complaints, administrating capital projects, maintaining city infrastructure, and organizing/ attending city events or storm water training workshops and seminars.

There are no MOUs or other agreements in place, although the City's Health Department and Fire Department regularly share pertinent information with the SWMP managers.

I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete. I am aware that there are significant penalties for submitting false information, including possibility of fine and imprisonment for knowing violations.

SMALL MS4 ANNUAL REPORT FORM

PUBLIC INVOLVEMENT/PARTICIPATION

BMP (Activity) & Responsible Party	Measurable Goal	Theme or Message	Target Audience	Estimate of People Participated	Summary of Results	Effective (Yes or No)
Storm Water Infrastructure Awareness Activities	Increase Public Awareness of City's storm water infrastructure through publicizing portal to the City's GIS information	Increased awareness of storm water issues through an understanding of the City's storm drain system	General Public and City Employees	323	<ul style="list-style-type: none"> 1. Access to the City's public GIS website is provided upon request. Middletown received requests from several engineering consultants for access to this information in 2017. 2. The City recorded 323 visitors to the storm water webpage in 2017. 	Yes
Public Participation Activities	Support at least one public participation activity to clean up receiving waterways and increase education about storm water pollution sources	Watershed and waterway pollution sources	Residents and General Public	35	<ul style="list-style-type: none"> 1. Advertise the Great Miami River Annual Clean Sweep event via social media, the Middletown Journal, and the City website community calendar at www.cityofmiddletown.org. Information for the event was also posted on scrolling informational screens at Miami University- Middletown and on a City sign on Town Mall Dr. City board members also went out into the community and talked to several churches, schools, and businesses about the event. 2. On October 28, 2017, 35 volunteers participated in the Great Miami River Cleanup, providing countless hours of labor. Five tons of trash were collected along with 12 automobile tires. 	Yes
Community Involvement Activities	Support community involvement groups with shared interests in reducing pollution	Watershed pollution sources	Residents and General Public	423	<ul style="list-style-type: none"> 1. On Earth Day, April 22, 2017, 423 volunteers participated in the Keep Middletown Beautiful/Great American Clean-up event. Volunteers properly disposed of 16 tons of trash and shredded 1 ton of documents. Information regarding this and other upcoming events were posted on the City Website Community Calendar (www.cityofmiddletown.org) and at http://keepmiddletownbeautiful.org/. 2. Middletown is recognized as a Tree City USA community for the 10th year by both the Arbor Day Foundation and by the ODNR. In 2017, the City was able to plant as many trees as they had removed from construction areas. Middletown's Arbor Day activities educated citizens about the benefits of trees (how trees prevent soil erosion). The educational activities also encouraged citizens to help plant and protect trees. 	Yes

Long-Term O&M Plans/Agreements	Maintain system to track and inspect post-construction BMP maintenance and functionality on all applicable projects, in compliance with the City's existing regulations	Yes	1	1	Long term O&M plans were completed and implemented for one construction site in 2017, that required post-construction BMP maintenance and functionality.	Yes
Scott Tadych					As construction continues within Middletown, the City continues to implement and enforce the relevant sections of its SWMP and the Storm Water Maintenance O&M Manual.	

SMALL MS4 ANNUAL REPORT FORM

POST-CONSTRUCTION STORM WATER MANAGEMENT IN NEW DEVELOPMENT AND REDEVELOPMENT

- Summarize activities you plan to undertake for the next reporting cycle.

BMP & Responsible Party	Measurable Goal	Summary of Planned Activities	Proposed Schedule
Ordinance or Other Regulatory Mechanism	Utilize the City's existing regulations to require post-construction BMPs per the applicable design criteria set forth in those regulations.	Continue implementation and enforcement of the City's existing regulations.	On-going implementation and enforcement
Scott Tadych			
Post-Construction Requirements	Maintain compliance of the City's existing regulations with the current OEPA NPDEA MS4 and CGP Permit, and applicable sections of the ODNR's Rainwater and Land Development Manual (RLDM).	Review the current OEPA NPDES MS4 Permit and Construction General Permit and the ODNR RLDM against the City's existing regulations annually, and evaluate any changes necessary to comply with the permit.	As required
Scott Tadych			
Site Plan Review Procedures	Complete preconstruction review of plans and SWP3's on all projects greater than 1 acre, or projects part of a common plan of development to ensure compliance with the City's post-construction standards.	Continue to review all applicable project plans and SWP3s against the City's post-construction standards included in existing regulations.	As required
Scott Tadych			
Site Inspection Procedures	Following completion of projects, perform inspections to ensure that post-construction BMPs are in place and functioning per approved plans on all projects.	Continue to perform final inspections as required and document accordingly.	As required
Scott Tadych			
Enforcement Procedures	Enforce compliance with the City's existing regulations regarding post-construction BMP design, construction, and O&M.	When inspections reveal non-compliance with the City's existing regulations, implement appropriate enforcement procedures per the SWMP.	As required
Scott Tadych			
Long-Term O&M Plans/Agreements	Maintain system to track and inspect post-construction BMP maintenance and functionality on all applicable project, in compliance with the City's existing regulations.	<ol style="list-style-type: none"> 1. Inspect post-construction BMPs on a semi-annual basis to ensure BMP's are operated and maintained in accordance with in-place O&M plans. 2. Amend the City's Storm Water Maintenance O&M Manual to include locations of known existing post-construction BMP's that require O&M plans. 	As required
Scott Tadych

POLLUTION PREVENTION/GOOD HOUSEKEEPING FOR MUNICIPAL OPERATIONS

BMP & Responsible Party	Measurable Goal	Completed (Yes or No)	Topic(s)	Targeted Audience	# of Employees Attended	Summary of Activity	Effective (Yes or No)				
Employee Training Program	Provide City employees annual training in support of current goals established in the SWMP	Yes	<ul style="list-style-type: none"> Pollution prevention and BMP's IDDE (identifying, tracking, and documenting the source and illumination) Spill prevention 	Employees	5 City employees received training on good housekeeping practices in 2017.	The City utilizes the Excal Visual Training Videos that include Raincheck, IDDE, and Oil and Water Don't Mix, to educate City employees on good housekeeping measures. Staff from the City's Storm Water and Streets departments participated in 2017.	Yes				
Charlie Anderson											
List of Municipal Facilities Subject to Program				O&M Procedures Developed for Facilities (Yes or No)		# of Facility Inspections Performed	Frequencies of Such Inspections				
Municipal Airport, Municipal Satellite Salt Storage Facility, Municipal Bus Terminal				Yes		In 2011, Storm Water Pollution Prevention Plans (SWP3s) were prepared for municipal facilities. These plans continued to be implemented through daily activities.	Once per year				
MS4 Maintenance	Summarize Maintenance Activities and Schedules			Summarize Activities Performed							
	Maintain City Facilities in compliance with the SWMP and referenced plans including the City's Storm Water Maintenance O&M Manual. On-going daily operations of City's storm water maintenance staff.			In 2011, Storm Water Pollution Prevention Plans (SWP3s) were prepared for municipal facilities and have been continually implemented.							
Disposal of Wastes	Procedures Developed (Yes or No)		Document Amounts of Wastes Properly Disposed								
	Yes		The City employs a dedicated crew which provides daily maintenance of the MS4, activities performed include regular maintenance and field activities in response to complaints.								
Road Salt	Covered (Yes or No)		Tons Used	Summarize Measures Taken to Minimize Usage							
	Yes		2174 Tons	<ol style="list-style-type: none"> The City's maintenance staff services road salt application equipment as needed. The City's SWMP includes Maintenance Division's current road salt use and application procedures which serves as the guidance for road salt applications. 							
Pesticide & Herbicide Usage	Procedures Developed (Yes or No)		Gallons Used	Summarize Measures Taken to Minimize Usage							
	Yes		35.771 gallons of liquid herbicide 100 lbs of granular pre-emergent 16.04 lbs of liquid pre-emergent 0lbs selective herbicide	<ol style="list-style-type: none"> The City's equipment maintenance staff services all pesticide and herbicide application equipment. The City's SWMP includes the Maintenance Division's current pesticide and herbicide use and handling procedures. The City uses licensed applicators to apply herbicides in accordance with product labels. Also, granular pre-emergence herbicides are applied in the spring to minimize use of selective herbicides throughout the growing season. 							
Fertilizer Usage	Procedures Developed (Yes or No)		Pounds Used	Summarize Measures Taken to Minimize Usage							
	Yes		257 lbs	<ol style="list-style-type: none"> The City's SWMP includes current fertilizer used and handling procedures. The City's uses trained applicators to apply fertilizer in accordance with product labels. 							

SMALL MS4 ANNUAL REPORT FORM

	Procedures Developed (Yes or No)	Document Amount of Material Collected and Properly Disposed
Street Sweeping	Yes	8609 lane-miles were swept in 2017. The amount of material collected and disposed of by the city was 1724 cubic yards of debris.
Flood Management Projects	Summarize any New or Existing Flood Management Projects that were Assessed for Impacts on Water Quality	
	<p>A project to upsize storm sewers on Aberdeen Dr. between University Blvd. and Rusmar Court was put out for bids in the fall of 2016. This project was implemented and completed in 2017.</p> <p>The City's wastewater facility finalized a Long-Term Control Plan (LTCP) that will minimize combined sewer overflows. The plan went into effect as of 1/1/2018. In conjunction with the LTCP's goals and objectives, the City has begun to identify and acquire properties that could assist with future storm water retention and thereby help reduce combined sewer overflows.</p> <p>Storm water management elements are also incorporated and/or taken into consideration when evaluating alternatives for capital improvements throughout the City.</p>	

SMALL MS4 ANNUAL REPORT FORM

POLLUTION PREVENTION/GOOD HOUSEKEEPING FOR MUNICIPAL OPERATIONS

- Summarize activities you plan to undertake for the next reporting cycle.

BMP & Responsible Party	Measurable Goal	Summary of Planned Activities	Proposed Schedule
Employee Training Program	Provide City employees annual training in support of current goals established in the SWMP.	Continue to conduct annual training related to storm water management, pollution prevention, and good housekeeping practices as identified in the SWMP and WWP3s.	Training to be conducted on an on-going basis, as time allows and outside training opportunities are presented.
Charlie Anderson			
List of Facilities Subject to Program	Maintain a comprehensive list of municipal facilities subject to the SWMP and MS4 permit.	<ol style="list-style-type: none"> For new facilities, determine whether they are subject to the SWMP and MS4 Permit. If this is the case, and then add to the list. Conduct facility site visits and inspections. Prepare SWP3s or adapt existing SPCC plans for facilities as required. 	Completed by December 2018
Scott Tadych			
MS4 Maintenance	Maintain City Facilities in compliance with the SWMP and referenced plans including the City's Storm Water Maintenance and O&M Manual.	Continue to conduct infrastructure inspections, maintain outfalls, sweep streets, and maintain detention basins.	On-going daily operations of City's storm water maintenance staff.
Scott Tadych			
Disposal of Wastes	Document the proper disposal of waste.	Continue to update and include waste disposal procedures in the City's O&M Manual.	Document current waste disposal procedures by 2018
Charlie Anderson			
Road Salt	Maintain responsible and controlled application of pesticide and herbicides by properly trained employees.	<ol style="list-style-type: none"> Maintain application equipment through regular calibration, cleaning, and repair. Apply materials using established application rates. Provide city employees with annual training in the proper equipment use and material application. 	Document current waste disposal procedures by December 2018
City of Middletown Street Maintenance Department			
Pesticide & Herbicide Usage	Maintain responsible and controlled application of pesticides and herbicides by properly trained employees.	<ol style="list-style-type: none"> Maintain application equipment through regular calibration, cleaning, and repair. Apply materials using established application rates. Provide City employees with annual training in the proper equipment use and material application. 	On-going
Scott Tadych			
Fertilizer Usage	Maintain responsible and controlled application of fertilizer by properly trained employees.	<ol style="list-style-type: none"> Maintain application equipment through regular calibration, cleaning, and repair. Apply materials using established application rates. Provide city employees with annual training in the proper equipment and material application. 	On-going
Scott Tadych			
Street Sweeping	Sweep all arterial streets multiple times per year to avoid collection of sediment on roadways.	Continue to operate street sweeper per the City's Storm Water Maintenance O&M Manual.	Daily per schedule
Charlie Anderson			
Flood Management Projects	Address water quality impacts and opportunities for all flood management projects.	Continue to review all flood management projects for water quality impacts and opportunities.	Throughout 2018
